

**MATERIAL SAFETY DATA SHEET****TRUCK WASH DETERGENT**JAN 2020 - PRODUCT CODE **88894****COMPANY DETAILS**

**Company Name** Harden Oil Company, HOCL Oils  
**Address** 19A Stephens Road, Queanbeyan, NSW, 2620  
**Telephone Number** 02 6284 4966  
**Fax Number** 02 6284 4355  
**Emergency Phone Number** **02 6284 4966**

**Section 1: PRODUCT IDENTIFICATION**

**Product Name** TRUCK WASH DETERGENT  
**Product Description** Complex Composition Organic Additives  
**UN Proper Shipping Name** N/A  
**Recommended Use** Cleaning of heavy residues from various surfaces

**Section 2: HAZARDS IDENTIFICATION**

**NOHSC Classification** Classified as hazardous according to criteria of NOHSC.  
**ADG Classification** Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.  
**SUSDP Classification** Harmful – Classified as a **Poison S5**  
**Risk Phrases** R36/38 Irritating to eyes and skin.  
**Safety Phrases** **S2 KEEP OUT OF REACH OF CHILDREN**  
S24/25 avoid contact with skin and eyes.  
S37/39 wear suitable gloves and eye protection.  
S45 in case of accident or if you feel unwell, seek medical advice.

**Section 3: COMPOSITION/INFORMATION ON INGREDIENTS**

<b>Chemical Entity</b>	<b>CAS</b>	<b>Proportion</b>
Complex mixture of materials deemed sensitive information		

**Section 4: FIRST AID MEASURES**

**Swallowed** If a large quantity is ingested seek immediate medical attention. Give water to wash out mouth. DO NOT induce vomiting. If vomiting accrues get immediate medical attention due to aspiration into lung risk.

**Eye** Immediately irrigate with copious amounts of water for at least 15 minutes. Eyelids to be held open. Take care not to rinse contaminated water into non-affected eye. In all cases of eye contamination, it is a sensible precaution to seek medical advice.

**Skin** Remove contaminated clothing and wash skin thoroughly with plenty of water and non-abrasive soap. If irritation develops and persists, seek medical attention.  
High pressure injection through the skin requires URGENT medical attention for possible incision, irrigation and/or debridement. Contact with molten material will require treatment by a physician for burns (DO NOT REMOVE MATERIAL)

## MATERIAL SAFETY DATA SHEET

<b>Inhaled</b>	Remove victim from exposure to fresh air-avoid becoming a casualty. Allow patient to assume the most comfortable position and keep warm. Keep at rest until fully recovered. Seek medical advice if effects persist. If breathing labored and patient cyanotic (blue) ensure airways are clear and have qualified person give oxygen through face mask. If breathing has stopped apply artificial respiration at once. In the event of cardiac arrest, apply external cardiac massage and seek urgent medical aid
<b>First Aid Facilities</b>	Normal washroom facilities are generally suitable. Ensure an eyewash station and shower is available and ready for use
<b>Advice to Doctor</b>	Treat symptomatically, for advice, contact the poisons Information Centre 131126

---

### Section 5: FIRE FIGHTING MEASURES

---

<b>Fire/Explosion Hazard</b>	Product is aqueous and is not considered combustible
<b>Hazards from combustion products</b>	Product is not combustible under normal conditions. Oxides of carbon may be evolved after evaporation of all the water.
<b>Fire Fighting Recommendations</b>	If safe to do so, remove containers from path of fire. Keep storage tanks, pipelines, containers, fire exposed surfaces, etc. cool with water spray. Avoid spreading liquid and fire by water flooding.
<b>Suitable Extinguishing Media</b>	Use water as a fog or spray to cool fire exposed containers. Appropriate extinguishing media include Dry Chemical, Foam, Carbon Dioxide and Water Fog.
<b>Protective Measures</b>	Fire fighters should wear self-contained breathing apparatus if risk of exposure to products of combustion. Water spray may be used to cool down heat exposed containers.
<b>Reactivity</b>	Incompatible with strong oxidizing agents and acids

---

### Section 6: ACCIDENTAL RELEASE MEASURES

---

<b>Spills &amp; Disposal</b>	Slippery when spilt. Avoid accidents, clean up immediately
<b>Clean-up Procedure-SMALL SPILLS</b> (20L or less)	Absorb or contain liquid with sand, earth or spill control material. Shovel up using non-sparking tools and place in a sound labelled sealable container for subsequent safe disposal. Place leaking containers in a sound labelled drum.
<b>Clean-up Procedure-Large SPILLS</b> (Greater than 20L)	Transfer to a sound labelled, sealable container for product recovery or safe disposal. Treat residues as for small spills.

---

### Section 7: HANDLING AND STORAGE

---

<b>Precautions for Safe Handling</b>	When handling product in drums, safety footwear should be worn and proper handling equipment should be used. Prevent spillages. Ensure the appropriate protective equipment is used when handling this product. Ensure high level of personal hygiene is maintained when using this product. That is: always wash your hands before eating, drinking, smoking or using the toilet.
<b>Storage Precautions</b>	Store in a cool, dry, well ventilated area away from sources of heat or ignition. This product should be stored away from food stuffs and strong oxidizing agents, keep containers closed at all times – check regularly for leaks.
<b>Storage Regulations</b>	Store in a well ventilated place away from ignition sources, oxidizing agent's foodstuffs and clothing. Keep containers closed when not in use. Refer to AS 1940 – The storage and Handling of Flammable Liquids and NOHSC: 1015 – National Standard for Storage and Handling of Workplace Dangerous Goods for further information

**MATERIAL SAFETY DATA SHEET**

**Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

**National Exposer Standards** No exposure standard has been established for this product. NOHSC Exposure Standards

**Occupational Exposure Limits**

**Exposure Limits**

Ingredient name	TEEL-1	TEEL-2	TEEL-3
	mg/m <sup>3</sup>	mg/m <sup>3</sup>	mg/m <sup>3</sup>
EDTA tetrasodium salt	36	396	2400
Sodium hydroxide	N/A	N/A	N/A
Dodecylbenzenesulfonic acid	2	21	130

Exposure Standard means the average concentration of a particular substance in the worker's breathing zone, exposure to which, according to current knowledge, should not cause adverse health effects nor cause undue discomfort to nearly all workers. It can be of three forms; time-weighted average (TWA), peak limitation, or short-term exposure limit (STEL). No exposure standards have been established for this material by the Australian National Occupational Health & Safety Commission (NOHSC). However, the available exposer limits on the ingredients are given above

**Engineering Controls** Maintain concentration below recommended exposer limit. Special ventilation is not normally required. However, in the operation of certain equipment or at elevated temperatures mists or vapour may be generated and localised exhaust ventilation should be provided to maintain airborne concentration levels below the standard or the Manufacturer's recommended exposer standard

**Respirator Protection** A respirator is not normally required. Airborne concentrations should be kept at lowest level possible. If vapours, mists or dust are generated and the recommended exposer limit for the product is exceeded, use appropriate AS/NZS 1715/1716 approved half-face filter respirator suitable for organic vapours or air supplied respirator is worn.

**Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION (CONT)**

**Eye Protection** Safety glasses, goggles or face shield as appropriate to AS/NZS 1337.

**Hand Protection** Laminated film, nitrile or other suitable gloves conforming to AS/NZS 216 : Occupational Protective Gloves.

**Footwear** Industrial safety shoes

**Body Protection** Suitable workwear should be worn to protect personal clothing, e.g. cotton overalls buttoned at neck and wrist.

**Hygiene Measures** Always wash hands before eating, drinking, smoking or using the toilet. If contamination occurs, change clothing. Launder contaminated clothing before reuse. Discard internally contaminated gloves.

**Special Protective Measures** The product will not burn unless preheated. Isolate from sources of heat, naked flames or sparks.

**MATERIAL SAFETY DATA SHEET**

**Section 9: PHYSICAL AND CHEMICAL PROPERTIES**

<b>Appearance</b>	Blue liquid
<b>Odour</b>	Odourless
<b>Boiling Point</b>	<100°C
<b>pH Value</b>	9.0 – 11.0
<b>Vapour Pressure</b>	NA
<b>Physical State</b>	Liquid
<b>Colour</b>	Blue
<b>Density</b>	1.00 – 1.05
<b>Flashpoint</b>	Non flammable

**Explosion Properties** Not considered an explosion risk under normal conditions of use

**Other Information** These Physical data and other properties do not constitute a specification.

**Section 10: STABILITY AND REACTIVITY**

**Hazardous Polymerisation** Hazardous Polymerisation reactions will not occur

**Materials to Avoid Hazardous** Strong oxidizers

**Decomposition Products** Oxides of carbon

**Conditions to Avoid** Products of this type are stable and unlikely to react in a hazardous manner under normal conditions of use. This material is combustible after evaporation of the aqueous component

**Section 11: TOXICOLOGICAL INFORMATION**

<b>Toxicology</b>	EDTA tetrasodium salt	LD50 oral (rat):	630 mg/kg
	Dodecylbenzenesulfonic acid	LD50 oral (rat)	650 mg/kg
	Sodium Hydroxide	LD50 oral (rabbit):	325mg/kg

**Acute – Swallowed** Not harmful by ingestion when assessed against criteria of Worksafe Australia. May cause irritation to the gastrointestinal tract of some individuals. Symptoms may include nausea, vomiting and diarrhea.

**Acute – Eye** Will cause eye discomfort, may cause immediate irritation and discomfort.

**Acute – Skin** Prolonged or frequent contact may cause skin irritation or cracking to sensitive skins.

**Acute – Inhaled** Is NOT a respiratory tract irritant when assessed against Worksafe Australia criteria.

**Section 12: ECOLOGICAL INFORMATION**

**Ecotoxicity** No data available for this material.

**Persistence/  
Degradability** Classified as “readily” biodegradable according to the guidelines of the OECD

**Section 13: DISPOSAL CONSIDERATIONS**

**Disposal Method** Dispose of waste according to Federal, EPA, and state regulations

**Section 14: TRANSPORT INFORMATION**

**Transport Information** Not classified as a dangerous good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

## MATERIAL SAFETY DATA SHEET

---

### Section 15: REGULATORY INFORMATION

---

<b>Poison Schedule</b>	Not scheduled
<b>Packing &amp; Labelling</b>	No special packaging or labelling requirements
<b>Australian Inventory Status</b>	All components are listed

### Section 16: OTHER INFORMATION

<b>Acronyms</b>	<b>ABN</b>	Australian Business Number
	<b>ACGIH</b>	American Conference of Government Industrial Hygienists
	<b>ADG</b>	Australian Dangerous Goods
	<b>AEST</b>	Australian Eastern Standard Time
	<b>AICS</b>	Australian Inventory of Chemical Substances
	<b>CAS</b>	Chemical Abstracts Service Registry Number
	<b>COC</b>	Cleveland Open Cup
	<b>DG Class</b>	Dangerous Goods Class
	<b>EPA</b>	Environment Protection Agency
	<b>Hazchem</b>	Code of numbers and letters which gives information to emergency services
	<b>IATA</b>	International Air Transport Association
	<b>IP</b>	Institute of Petroleum
	<b>NOHSC</b>	National Occupational Health and Safety Commission
	<b>OECD</b>	Organisation of Economic Co-operation and Development
	<b>PMCC</b>	Pensky-Martens Closed Cup
	<b>SUSDP</b>	Standard for the Uniform Scheduling of Drugs and Poisons
	<b>UN Number</b>	United Nations Number
